Section 1. Preliminary statements

Applicant submits herewith patents, publications or other information of which he is aware, which he believes may be material to the examination of this application and in respect of which there may be a duty to disclose in accordance with 37 CFR 1.56.

The filing of this information disclosure statement shall not be construed as a representation that a search has been made (37 CFR 1.56(g)), an admission that the information cited is, or is considered to be, material to patentability or that no other material information exists.

The filing of this information disclosure statement shall not be construed as an admission against interest in any manner. Notice of January 9, 1992, 1135 O.G. 13-25, at 25.

Section 3. Statement As To Information Material To Examination Not Found in Patents or Publications (Information not listed in PTO 1449)

The sequence from the Schwartz, H. et al., (1993) reference cited as reference DA in applicant's information disclosure statement was submitted to Gen Bank on April 23, 1993 and assigned accession number L 12964 as disclosed in the reference on page 296 in the figure legend for Figure 1. Attached to this statment is a copy of an e-mail message from John O'Neil of Genome Sequence DataBase, User Support Staff. As stated in his communication, this is a print-out of the the submission designated L 12964 which was included in the CD-ROM release of the database. This CD-ROM database is a listing of all of the sequences submissions such that this information was not accessible to the public until Schwarz published his paper. The listing does not include the designation 4-1BB, so one skilled in the art would not have been to identify the sequence as the human homologue of 4-1BB. It is not believed that this sequence submission consitutes a "publication" and therefore, should not be considered as a reference in evaluating the patentability of the claims in the present application.

Section 4. Identification of Prior Application in Which Listed Information Was Already Cited and For Which No Copies Are Submitted Or Need Be Submitted

Section 5. Cumulative Patents or Publications

[] is cumulative of the following patents or publication listed on Form PTO 1449 (modified):

In accordance with 37 CFR 1.98(c) a copy of only _____ is being submitted with this information disclosure statement.

Section 6. Copies of Listed Information Items Accompanying This Statement

Legible copies of all items listed accompany this information statement. [] Exception(s) to above:

[] Items in prior application from which an earlier filing date is claimed for this application as identified in Section 4.

☐ Cumulative patents or publications identified in Section 5.

Section 7. Concise Explanation of Non-English Language Listed Information Items

Section 8. Translation(s) of Non-English Language Documents

☐ Submitted herewith is an English translation of the following foreign language patents, publications or information or of those portions of those patents, publications or information considered to be material:

☐ No English language translations of the foreign language patents, publications or information or parts thereof are readily available, except for those listed above.

☐ The following foreign language documents submitted are believed to be the equivalent or substantial equivalent of the English language documents identified below, which are also submitted herewith.

**Section 9. Identification of Person(s) Making This
INFORMATION DISCLOSURE STATEMENT**

Subject: L12964 flatfile
X-Sun-Charset: US-ASCII

Dear Mr. Michaels:

Here is a copy of the flatfile of L12964 from the June, 1993 GenBank CD-ROM release. The date at the top of the file is the release date from that version of the entry.

I hope that this is helpful to you.

Sincerely yours,

John O'Neill
